It's Renewable!

Corn, barley, and soybeans fuel cars, trucks, boats and school buses!

It's Biodegradable!

Grain is a great replacement for many oil-based plastics! Trash bags, egg cartons, golf tees, disposable plates & silverware - just to name a few!

It Helps the Environment!

Plants make oxygen for us to breathe!
Crops protect land from wind & water erosion!
Grain-based fuels and plastics don't use up fossil fuels!
Winter barley & wheat crops use up extra nitrogen in the soil to protect our water!
